

Candidate Statement Michaela Kelso

I hope to earn your vote this year for Spokane Conservation District Board of Supervisors. I live in north Spokane County with my husband of 30 years, two dogs, two cats and (at last count) 14 chickens. We moved here with our two children in 2018 after retiring from active duty. I am currently attending Spokane Community College, completing degrees in Urban Forestry, Landscape Management, and Small Farms Production, while my husband delivers your mail. Conserving our natural resources, promoting sustainability practices, and protecting our environment are some of our main priorities. We offset our electricity use with a solar system, our house has a HERS value of 0 (zero) and I drive an electric car.

The programs the Conservation District offers provide many resources to the citizens of Spokane County, and as a supervisor I will be proud to support the District Staff in this important mission! Thank you for vote.
